main.c

```c

#include <stdio.h>
#include <string.h>
#include <ctype.h>

int main() {
    char text[] = "My day begins early, and my dog waits
    int length = strlen(text);
    int count = 0;

    char *word = strtok(text, " ,.!?;:");

    while (word != NULL) {

        for (int i = 0; i < strlen(word); i++) {
            word[i] = tolower(word[i]);
        }
      if (strcmp(word, "my") == 0) {
            count++;
        }
        word = strtok(NULL, " ,.!?;:");

    }
    printf("Length: %d\n", length);
    printf("Count: %d\n", count);
    return 0;
}
```

```
Length: 501
Count: 20
